

DATA SET DESCRIPTION

Historical dataset: Monthly mean of daily minimum temperature for stations worldwide

Version qcV002

DWD Climate Data Center: Historical dataset: Monthly mean of daily minimum temperature for stations Cite data set as:

worldwide, version qcV002, 2017.

INTENT OF THE DATASET

Observations had been collected from worldwide CLIMAT stations, and had originally been provided by the respective National Weather Services. The data comprise the full time series as far as available in the database of DWD, and is quality controlled by DWD for climatological and climate related applications.

POINT OF CONTACT

Deutscher Wetterdienst CDC - Vertrieb Klima und Umwelt Frankfurter Straße 135 63067 Offenbach

Tel.: + 49 (0) 69 8062-4400 Fax.: + 49 (0) 69 8062-4499 Mail: klima.vertrieb@dwd.de

DATA DESCRIPTION

Spatial coverage global

Temporal coverage 01.01.1949 - 31.12.2014

Temporal resolution monthly

Format(s) The names of the data sets start with the station number, followed by the start (year, month) and the end

of the data set (e.g. 01001_200801_201412 means station 01001 = Jan Mayen from January 2008 to December 2014). In the data set the year is followed by the 12 monthly means. For information about station numbers, stations and their location use the station list: https://opendata.dwd.de/climate_environment/CDC/

help/stations_list_CLIMAT_data.txt

The monthly mean of daily minimum temperature is given for each month of the year, each row covers a **Parameters**

year.

Mrz

Jahr

mean of daily min temperature in °C Jan January

Feb mean of daily min temperature in °C February

mean of daily min temperature in

March Apr

mean of daily min temperature in °C April

Mai mean of daily min temperature in °C

Mav

mean of daily min temperature in °C Jun

June

Jul	mean of daily min temperature in July	°C
Aug	mean of daily min temperature in August	°C
Sep	mean of daily min temperature in September	°C
Okt	mean of daily min temperature in October	°C
Nov	mean of daily min temperature in November	°C
Dez	mean of daily min temperature in December	°C

Quality information not available

DATA ORIGIN

National Meteorological Services

VALIDATION AND UNCERTAINTY ESTIMATE

The quality control includes: Check of internal consistency of the data in a report, check against climatological thresholds, comparison with values generated from the synoptic network as well as an environmental check.

CONSIDERATIONS FOR APPLICATIONS

This are data which span the historical time series, and where the full quality control had been completed. For extension to more recent years, see directories ../recent/.
