

DATA SET DESCRIPTION

Recent dataset: Monthly mean of daily minimum temperature for stations worldwide

Version recent

Cite data set as: DWD Climate Data Center: Recent dataset: Monthly mean of daily minimum temperature for stations worldwide, version recent, last accessed: <date>.

INTENT OF THE DATASET

Observations had been collected from worldwide CLIMAT stations, and had originally been provided by the respective National Weather Services. Only the most recent years are provided here. Note that data have not yet passed the full DWD quality control.

POINT OF CONTACT

Deutscher Wetterdienst
CDC - Vertrieb Klima und Umwelt
Frankfurter Straße 135
63067 Offenbach

Fax.: + 49 (0) 69 8062-4499
Mail: klima.vertrieb@dwd.de

DATA DESCRIPTION

Spatial coverage global

Temporal coverage 01.01.2015 - previous month

Temporal resolution monthly

Format(s) The names of the data sets start with the station number, followed by the start (year, month) and the end of the data set (e.g. 01001_201501_201706 means station 01001 = Jan Mayen from January 2015 to June 2017). In the data set the year is followed by the 12 monthly means. For information about station numbers, stations and their location use the station list: https://opendata.dwd.de/climate_environment/CDC/help/stations_list_CLIMAT_data.txt

Parameters The monthly mean of daily minimum temperature is given for each month of the year, each row covers a year.

Jahr	year	
Jan	mean of daily min temperature in January	°C
Feb	mean of daily min temperature in February	°C
Mrz	mean of daily min temperature in March	°C
Apr	mean of daily min temperature in April	°C
Mai	mean of daily min temperature in May	°C
Jun	mean of daily min temperature in June	°C
Jul	mean of daily min temperature in July	°C
Aug	mean of daily min temperature in August	°C

	Sep	mean of daily min temperature in September	°C
	Okt	mean of daily min temperature in October	°C
	Nov	mean of daily min temperature in November	°C
	Dez	mean of daily min temperature in December	°C
Quality information	not available		

DATA ORIGIN

National Meteorological Services

VALIDATION AND UNCERTAINTY ESTIMATE

The quality control includes: Check of internal consistency of the data in a report and check against climatological thresholds.

CONSIDERATIONS FOR APPLICATIONS

For historical data which completed the quality control , see directories ../historical/.
